Features Key:

- Enhanced Frostbite Engine
- New Player Model – Ever make a great pass? Guess what: you can now replicate it in real life. All 22 players move off the ball differently, struck with greater verve and accuracy with the explosive force of your pass. Each jump and turn is recorded, the ball will react to how they move, and players will make unique, individual movement patterns. They'll weave, jump, run, and slide like no other.
- Better Passing – The more accurate the pass, the more that player's qualities will increase. Players will react to your passes both where they are being played to, and how they move around the pitch, giving them a natural feel and revealing their strengths and weaknesses.
- MLS Challenge – Players will respond to how you command the ball using your kicks and touches, allowing for fewer errors with more control, making playing the advanced passing game easier.
- Highly Personalised Gameplay – In addition to higher precision passing, players will react to how you play, including their tactics and brand of play, and make high-quality decisions that directly affect gameplay. Players will even prefer certain types of passing based on their style of play.
- My Team, My Style – Invite as many real friends into the game as you like, and customise your ideal team to your expectations.
- New Player Body Types – Have you ever noticed that your players look different if you're playing on turf than if you're playing on grass? That's because you're playing the game on a unique field, and the new Adidas-developed connected field allows the in-game engine to map your field and pick up accurate data on how the game is being played. So you can create truly high-level pitches all across the globe to see for yourself how unique the football looks when played on a specific field. The options are limitless.
- New User-Aided Technical Skill training – Around 80 per cent of every training session is spent perfecting your athletic attributes like driving, dribbling, shooting, changing directions, and volleying. Craft a unique training programme based on your playing preferences for a holistic, more representative experience. Additional player attributes and attributes that improve with age, improvements in physical stats and more
